

# Boussinesq Center for Hydrology

$$u_{tt} + \alpha u_{xx} + \beta(u^2)_{xx} + \gamma u_{xxxx} = 0$$

# Boussinesq Lecture 2007

Subject: The global hydrological cycle: feedbacks between land cover and climate

## Jim Shuttleworth

University of Arizona, USA

For sure the land must lend a hand....influences of land cover on weather and climate

## Richard de Jeu

Vrije Universiteit Amsterdam

Down to Earth with Soil Moisture from Space

## Hessel Winsemius

Delft University of Technology

Modelling the ungauged Luangwa river basin using new data sources

Location:

Royal Netherlands Academy of Arts and Sciences (KNAW)

Het Trippenhuis

Kloveniersburgwal 29

1011JV Amsterdam

The Netherlands

Koninklijke  
Nederlandse  
Akademie van  
Wetenschappen

## October 22, 2007

13:30 – 17:00h

Registration:
